Such predecessor Escrow Agent shall, on the written request of the Township's Representative, the Buyer, or the successor Escrow Agent, execute and deliver to such successor Escrow Agent all the right, title, and interest hereunder in and to the Escrow Fund of such predecessor Escrow Agent and all other rights hereunder of such predecessor Escrow Agent. Section 9. TERMINATION. This Escrow Agreement shall terminate on the earlier of: (i) the date on which there are no funds remaining in the Escrow Fund or (ii) the date on which the Escrow Agreement receives a signed notice from the Township and the Buyer that the Escrow Agreement is terminated, including instruction to the Escrow Agent on the disbursement of the Escrow Fund.

### **CAPITAL IMPROVEMENTS TO LIFT SEWER BAN**

#### **Required Capital to Lift Sewer Ban**

Upon Closing, New Jersey American Water Company, Inc. (“New Jersey American Water”) shall conduct further investigations on how best to address the capital needs of the Wastewater System and develop its own capital improvement program. To the extent that the capital needs identified in Schedule I to **Exhibit K** are reasonable and the best approach to lifting the sewer ban, New Jersey American Water will commit to making the necessary improvements. With respect to those improvements noted in Schedule I to **Exhibit K** under “Wastewater Treatment Plant” that are not part of lifting the sewer ban (bullet points 4, 6, 7, 8, 9 and 10), New Jersey American Water commits to making the necessary improvements.

New Jersey American Water feels strongly that improving the Township’s Wastewater System by investing in reducing the significant inflow & infiltration (“I&I”) and upgrading the wastewater treatment plant aligns with its mission and will work within the parameters of applicable State and Federal regulations to achieve this goal of the Township within the time frames hereby established. New Jersey American Water believes an accurate assessment and understanding of the work required to reduce to minimize the I&I in the Wastewater System will drive the needed capital program for both the collection system and plant expansion improvements. Needed capital for reliability, safety, and operational efficiency will be addressed as part of New Jersey American Water’s detailed capital improvement plan which will be completed within the first two years following the successful transition to New Jersey American Water.

#### **Capital Improvements to Pump Stations**

New Jersey American Water commits to make the capital improvements to the Morristown Road and Clover Hill Pump Stations identified in Schedule I to **Exhibit K** within two (2) years from the Closing Date. Any capital improvements that are completed by the Township during both the proposal period and the transition period to New Jersey American Water operations will be excluded from New Jersey American Water’s capital plan.

#### **Capacity for Affordable Units**

With the reduction of I&I and the completion of any wastewater treatment plant improvements needed, New Jersey American Water will be able to provide additional wastewater capacity to the Township and agrees to reserve and set-aside new sewer capacity on a priority basis as set forth in Sections 8.6 and 8.8 of the Agreement.

#### **Connection of Properties Not Connected to the Wastewater System**

The sewer extension work will be a significant undertaking that requires detailed studies, not the least of which includes wastewater treatment plant capacity and alleviating I&I. New Jersey American Water agrees to work with the Township to find the most prudent and cost effective way to extend the Wastewater System to properties not connected to the Township’s Wastewater

System so that at least 95% of the existing properties within the Township are connected in accordance with Section 8.7 of the Agreement. New Jersey American Water will collaborate with the Township regarding the additional sewer connections to achieve this requirement in an appropriate manner for all parties and address any resulting impacts.

New Jersey American Water commits to meeting or exceeding the Township's requirements for investing in the Long Hill Wastewater System to ensure safe, reliable, affordable and compliant wastewater services.
